Portfolio

PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with hands-on experience in developing web applications, Python-based projects, cloud computing applications, and machine learning solutions. Skilled in C, C++, Python, JavaScript, React, HTML, and CSS. Experienced in building full-stack applications, REST APIs, and machine learning models. Passionate about software development, problem-solving, and building practical technology solutions.

EDUCATION

Sahyadri College of Engineering & Management Mangaluru, Karnataka

Bachelor of Engineering in Computer Science and Engineering 2023 – 2027

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, PHP

Web Technologies: HTML, CSS, React.js, Flask, Express.js

Databases: MongoDB

Machine Learning: Scikit-learn, Random Forest, XGBoost, Isolation Forest, NumPy

Cloud Computing: Amazon Web Services (AWS), EC2, S3

Tools and Platforms: Git, GitHub, VS Code, Linux

PROJECTS

Real-Time Energy Consumption Monitoring and Prediction System
Technologies: Python, React.js, Express.js, FastAPI, Machine Learning

- Developed an AI-based energy monitoring and prediction system to analyze electricity consumption and support energy optimization.
- Implemented Random Forest and XGBoost models for energy prediction, achieving MAPE values of 5.98% and 5.88%, respectively, during evaluation.
- Integrated Isolation Forest for anomaly detection and Particle Swarm Optimization (PSO) for energy optimization.
- Built a React dashboard with backend APIs using Express.js and a FastAPI-based machine learning service.

Image Steganography Using LSB Technique
Technologies: Python, Flask, OpenCV, NumPy

- Developed a web application to securely hide text messages inside digital images using the Least Significant Bit (LSB) steganography technique.
- Implemented image encoding and decoding functionality, allowing users to upload images, embed messages, download encoded images, and retrieve hidden messages.

Skill Exchange Platform
Technologies: React.js, MongoDB

- Developed a platform that enables users to exchange skills and services without direct monetary transactions.
- Worked on the web application interface and database integration to support skill-sharing functionality between users.

AWS Cloud Computing Static Website
Technologies: AWS EC2, GitHub

- Deployed a static website using Amazon EC2 and explored cloud infrastructure and hosting.
- Used GitHub for source code management and version control.

CERTIFICATIONS AND TRAINING

- Skill Development Program Certificate.

ADDITIONAL INFORMATION

Areas of Interest: Software Development, Full Stack Development, Machine Learning, Cloud Computing, Data Structures and Algorithms.

Coding Platforms: LeetCode, GeeksforGeeks.
